EDUCATION

Bachelor of Computer Application

Oct 2023 - Jul 2026

- Galgotias University
- SGPA : 8.1

PROJECTS

Weather Dashboard

- API Integration: Use JavaScript to fetch weather data from a public API like OpenWeatherMap.
- Dynamic UI: Update the UI dynamically based on the weather data received.
- Search Functionality: Allow users to search for weather information in different cities.
- Responsive Design: Ensure the dashboard looks good on both desktop and mobile devices.

Task Management App

- CRUD Operations: Implement Create, Read, Update, and Delete functionalities for tasks.
- Task Filtering: Add functionality to filter tasks by category or deadline.
- Local Storage: Use local storage to save tasks so that they persist even after the page is refreshed.
- Drag-and-Drop: Implement drag-and-drop functionality for task prioritization or organization.

Trivia Quiz Game

- Question Bank: Create a set of trivia questions with multiple-choice answers.
- Scoring System: Implement a scoring system that keeps track of the user's correct and incorrect answers.
- Timer: Add a timer to make the game more challenging.
- Feedback: Provide immediate feedback on the user's answers and display the final score at the end of the quiz.

SKILLS

- **Programming Languages:** JavaScript, C/C++, Java, Git, HTML, CSS,
- **Framework/ Libraries:** React js
- **Database:** MySQL
- **Technical Skills:** Excel, PowerPoint, Word, Adobe
